OPERATIONS NOT ALWAYS NECESSARY.

Doctors Frequently Mistaken.

'I suffered untold agony with piles for over three years. Two doctors told me nothing but an operation would cure me, i tried different remedies, but nothing did me any good until I used Pyramid File Cure. I bought six fifty-sent boxes at the frug store, and now I can do my work and go out, where before I spent most of my time lying down. I thank God for giving the discoverer the knowledge to make such a cure. I recommend it to all my friends, and if I ever have piles again will certainly use this remarkable remedy. You can use this ha my way you wish to gake known the wonderful merit of Pyramid File Cure.' Mrs. Wm. Mucky, si Miershall street. Elizabeth, N. J.

'The experience of this lady is that of Housands of others who have been assured that nothing short of an operation would rid them of this distressing complaint. On the face of it, it appears as if too many surgeons operate in order that they may keen their hand in and lose no portion of their skill; then, again, too many surgeons are auxious to experiment dike the scientific man in Mark Twain's pathetic story of the dog and her little puppy, and do not have proper regard for a patient's physical welfare or condition.

CLERGYMEN FAVOR ABOLITION

Passage of Laws Making Practice in All States Uniform Will Be Urged-Some Social Affairs.

Although no radical action is expected without the co-operation of the cemetery officials, abolition of Sunday burials probabiy will be discussed by the National Funeral Directors' Association when its twenty-third annual convention is called to order in Rose Hill Hall, Hamilton and Maple avenues, this morning,

Already 300 undertakers from the four quarters of the United States are assembled here, with the Hamilton Hotel as their headquarters, and at least 305 more are expected to-day.

As a preliminary to the convention, the State Embalming boards held their first annual congress yesterday in Rose Hill Hall, Sixteen States were represented and President McCullough of Indiana presided, The fifty representatives present were unanimous in their discussions concerning a uniform graduation standard in all parts of the United States. When this has be-come in force, the State boards hope to establish reciprocity between States as the next step. Under the present conditions at undertaker in Missouri cannot practice in Hlinois, as the State requirements are different, and it is the hope to establish a universal standard that will enable embalmers to work in any State in the Union, The Funeral Directors' Association will convene this morning at 10 o'clock, and the three-day session will be almost continuous when the social features are in-cluded. The local association, of about ninety-five members, which has appointed M. H. Alexander president of the Reception and Entertainment Committee, has planned a theater party to-night at the Odeon for the visitors and to-morrow a banquet for 500 guests at the Hamilton

Question Will Be Discussed at MYRTLE EBERLY UNMOVED WHEN HELD FOR KILLING.

> Young Girl Who Shot Edward Leonand Says She Is Willing to Suffer Penalty.

> Held by the Coroner's jury yesterday for the killing Saturday night of Edward Leonard, Myrtle Eberly seems unaffected by the verdict and continues to declare that she is willing to suffer the constquences of her act.

The only time she showed any signs of breaking down was at the Morgue, where she was taken to view the lody. When the slab was drawn out she looked at the body and trembled. Tears came to her

es, but only for a moment. "You don't understand what it means to ne," she said, after the verdict. "I know I violated the law and the jury was perfeetly justified in holding me. But I lon't feel in my heart that I am guilty like a

criminal.

"Had I given way to his influences of my own free will and been deceived, I would have blamed only myself. But it wasn't that way. No, I wasn't in a rage when I fired the shots. I thought over the matter, and it seems to me that I did the only thing I could. The law did not seem strong enough to right the wrong."

To the police the girl is almost an enigma. She makes no attempt to minimize her part in the shooting or appeal for sympathy, but regards her life as totally blasted and the shooting as the end of all things for her.
